

## Adding a Twitter Feed to Your Profiles Page

1. Navigate to your **Profiles** page and Login using the link on the top left:

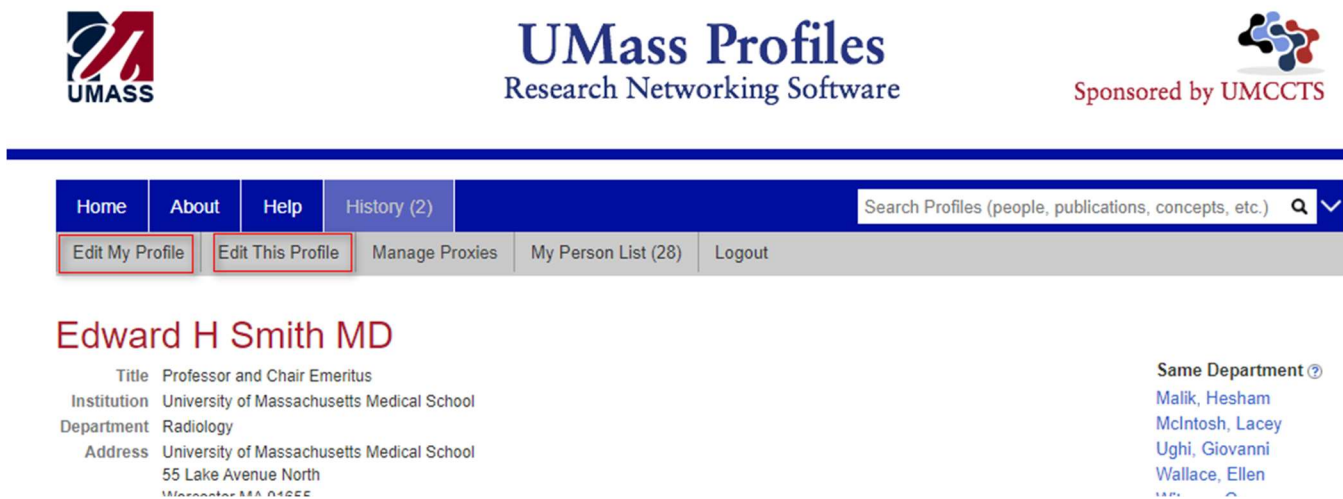

2. Click **Proceed to Login** and use your UMass credentials (jdoe for example) to login. You will be redirected to the University login page as shown below:

- After logging in, navigate to the profile you would like to edit. Click **Edit My Profile** if editing for yourself or **Edit This Profile** if you are a proxy editing on someone else's behalf:

- Click the Twitter option listed under the **Category: Featured Content**

Category: Featured Content	Items	Privacy
Featured Presentations	0	Public
Featured Videos	0	Public
Twitter	0	Public

5. Select the **Add Twitter** option:

Smith, Edward

Edit Menu > Twitter

Edit Visibility (Public)

Add Twitter

Delete Twitter (Remove Twitter account from your profile.)

There is currently no twitter account on your profile.

For assistance with using Profiles, please refer to the [online tutorials](#) or contact [UMMS Help Desk](#) or call 508-856-8643.

6. Enter the Twitter handle for the twitter account you wish to add to the Profile:

Smith, Edward

[View Profile](#)

Edit Menu > Twitter

Add Twitter

Attach Twitter Account

Display your most recent tweets from [Twitter.net](#) on your profile. If you do not currently have a Twitter account, you can select one you follow.

Twitter Username

[Save](#) | [Cancel](#)

There is currently no twitter account on your profile.

7. Click **Save**. A preview is shown. Remember to verify that Visibility is set to **Public** so Twitter will be visible in the profile. You can modify this by clicking the Edit Visibility link and updating the visibility to **Public**.

Smith, Edward

Edit Menu > Twitter

Edit Visibility (Public)

Add Twitter

Delete Twitter (Remove Twitter account from your profile.)

Your most recent tweets: @UMassChan

Tweets by @UMassChan

**UMass Chan Medical School**

@UMassChan

This news is welcomed: Only two heritable diseases currently have FDA-approved gene therapies. UMass Chan Medical School faculty are dedicated to advancing rare disease research. [#genetherapy](#) <https://twitter.com/NIH/status/1453384630933938176>
