Present a Professional Development Seminar

Workshop: Adobe Illustrator

Charlene Baron, M.Ed.
Digital Imaging Specialist
UMass Medical School

Charlene Baron, M.Ed. is a graphic arts and medical photography/imaging specialist who will share her expertise on the use of Adobe Illustrator in figure preparation.

Charlene's presentation will be followed by small group, hands-on workshops in the following weeks where you can practice your Illustrator skills with your own data. Sign-up sheets will be available after Charlene's presentation.

Charlene has 30 years of experience in biomedical photography and digital imaging and has coached researchers, students, faculty and physicians with their graphics and imaging projects. She has taught production of media materials courses at UMass Boston and many workshops at UMMS. Charlene is the graphic designer for the Journal of Biocommunication print version and a past President of the BioCommunications Association.

Thursday, September 13, 2012
