

A1 - D3 represents possible schedule sequences assigned to MS3s via lottery
 F1-F4 represents Family Medicine week within the ambulatory block
 PCHC = Population and Community Health Clerkship
 WIN week = What I Need week where learners can retest, seek extra support, etc
 Ambulatory weeks contain Family Medicine (1-2 weeks), outpatient clerkship weeks, and a flexible professional experience ("FPE") selected in advance by the student.
 Pathways time is ALWAYS within the surgical unit's ambulatory block
 Radiology 1 week clerkship is within the surgical ambulatory block

Schedule A: represents possible schedule sequences assigned to MS3s via lottery

F1-F4 represents Family Medicine week within the ambulatory block

PCHC = Population and Community Health Clerkship

WIN week = What I Need week where learners can retest, seek extra support, etc

Ambulatory weeks contain Family Medicine (1-2 weeks), outpatient clerkship weeks, and a flexible professional experience ("FPE") selected in advance by the student.

Pathways time is ALWAYS within the surgical unit's ambulatory block

Radiology 1 week clerkship is within the surgical ambulatory block

One "FPE" week may be used as vacation time.
