

The Global Mental Health Case Conference Series is a biannual live video conference call between UMass Memorial Medical Center (UMMMC) and Shanghai Mental Health Center (SMHC) started in 2014. The goal is to provide a platform for real-time, interactive, and critical discussion surrounding a psychiatric case presentation involving Chinese culture. Topics include the interplay of Chinese and American culture, stigma, religion, and psychiatric diagnostic schemes.

We invite everyone to attend and to contribute to this event.

# Case Conference: Chinese Culture and Psychosis

August 27, 2015  
8:00 – 9:00 a.m.

Psychiatry Classroom (S4-325)
